

COVID-19 COMMUNICATION

29 December 2020

FLEURENVILLE MEASURES RELATING TO COVID-19

Fleurenville, Aged Care Centre, is conscious of the evolving second wave of the Covid-19 pandemic.

While we understand that visits are essential to our residents' well-being, we believe that our residents and staff's health and safety are of utmost importance and have therefore decided to temporarily cancel all visits to our facility.

Fleurenville has further decided that all residents currently visiting family members will be required to undergo a Covid-19 test and present a negative result, before returning to Fleurenville.

These measures will take effect from, today, 29 December 2020.

We want to emphasise that everyone within the elderly care/ healthcare sector is working together to fight this pandemic. We encourage communities and families to adhere to the lockdown and distancing efforts and observe all our facility measures.

It is important to note that Visits to critically ill residents will be **allowed with prior arrangement**. Should you wish to discuss any specific requirements relating to visits, please contact **Manager Care Services, Sr Estelle Dannhauser, 082 575 7853**.

Fleurenville relies on your support in our efforts to fight the pandemic.

We wish you all a prosperous new year.

Regards

JAN HEYSTEK
CHIEF EXECUTIVE OFFICER
